- Worked remotely with a dynamic company, demonstrating strong self-management and communication skills.

iOS Developer M Tech Soft

11/2021 - 02/2023

Lahore

Achievements/Tasks

- Designed and developed UI screens for multiple client apps, ensuring smooth user flows and consistent design patterns.
- Integrated REST APIs across various modules, including authentication, dashboards, chat features, and data syncing.
- Implemented Firebase services such as Firestore, Authentication, and Cloud Messaging for real-time features and notifications.
- Collaborated with backend teams to refine API structures and improve app performance and reliability.

EDUCATION

BS Computer Science

Bahauddin Zakariya University

2016 - 2020

Multan

SKILLS

Swift • UIKit • SwiftUI • Xcode
• AutoLayout

Alamofire • URLSession •
Postman

Remote Config • Firestore •
Analytics • Crashlytics • Push
Notifications

Google Cast SDK

AVFoundation (Recording &
Playback) • PhotoKit • Vision
(Photo Similarity)

Video Compression •
FileManager / Caching • Core
Data • Background Tasks

Google Mobile Ads • In-App
Purchases

MVVM / MVC • Git / GitHub /
Bitbucket

PERSONAL PROJECTS

Phone Cleaner

- Developed a comprehensive Phone Cleaner app with intelligent photo grouping using Vision, secure secret library, charging animation intents, contact management, and efficient video compression. Implemented optimized caching, background processing, and smooth user experience across all modules.

Voice Recorder

- Independently developed and published a Voice Recorder app featuring high-quality recording, multiple modes, tag management, audio trimming, transcription, and Core Data caching. Integrated Firebase Crashlytics for issue tracking.

VidInsight Video Player App

- Developed and integrated Google Ads for optimized ad display, including interstitial and app open ads, and implemented Android TV screen casting using the Google Cast SDK. Managed ad configurations via Firebase Remote Config, monitored performance with Firebase Analytics and Crashlytics, and enhanced video playback features and local network connectivity to deliver a seamless and user-friendly video player experience.

Soha

- Independently developed the Soha e-commerce app, leveraging LeonardoAI for prompt generation and implementing three customizable themes for an engaging user experience. Managed the entire development process from concept to deployment.
